

Position Summary: The Check-Out Receptionist is responsible for greeting patients as they check-out and offer them friendly and prompt assistance while coordinating the patients care. The Check-Out Receptionist will review the provider's orders to determine the necessary treatment plan. At checkout follow up appointments are scheduled with the patient. Either appointments are scheduled or arrangements are made for diagnostic testing. Dictations are sent to the referring and primary care doctors and the clinical summaries are exported at check-out. Outstanding balances are collected for coinsurances. The deposits are collected and balanced as a group and taken to the bank for deposit.

Reports to: Director of Office Management and Staffing

Flexibility: While this job description is meant to provide an overview and specific responsibilities of the Check-Out Receptionist, ENTA Management reserves the right to make changes, adjustments and revisions, as needed, to this document and will coordinate such modifications with ENTA's Practice Administrator and Physicians.
